

The acknowledged leader in science reporting... at **73% OFF** and in digital format!

For decades, *Science News* has been an important window into the ever-changing and always fascinating world of science. A publication designed for intelligent, involved scientists, scholars, educators, and science enthusiasts, *Science News* is packed with timely, concise, and engaging articles renowned for their accuracy.

88 years of accurate, credible science coverage

Since 1922, we've been bringing the breaking news of science to the world. *Science News* covers every field of science from astronomy to zoology, providing the world's best coverage of cutting-edge scientific advances. No magazine, scientific or otherwise, has subscribers that are more loyal... and we work hard to continue to deserve that loyalty.

Exemplary reporting from award-winning science journalists

Over the years, *Science News* has received a long list of awards for its exceptional editorial content. Written and edited by a staff of highly experienced science journalists, *Science News* is the **pre-eminent source** of accurate scientific reporting.

Unlimited subscriber-only Web site access plus customized e-mail headline services

Because scientific developments and breakthroughs can come at any time, we've designed our *Science News* Web site to be **updated daily**, giving our subscribers the absolute latest information at the click of a mouse. And we now offer subscribers our new **e-mail headline service**, customized to your specific interests.
