Our Universe is Expanding

Science News is your most accurate and credible source for science reporting. We bring you coverage of news from across the entire spectrum of the sciences, from the Earth and sea to the unfathomable reaches of outer space. Each digital issue is identical to our printed edition, bringing you important news of the scientific world. The instant each issue is ready, we'll send you an e-mail with a link to access the digital edition. Plus, you'll have unlimited access to our Web site — updated every day — and to our new e-mail headline service, which can be customized to your specific interests.

SAVE 73% on *Science News*!
Now in New Digital Edition format

To enter your subscription for the digital edition of *Science News* — at **73% OFF** the printed cover price — peel off this sticker, affix it to your postage-paid order form, and mail today!
