## Our Universe is Expanding

*Science News* is your most accurate and credible source for science reporting. We bring you coverage of news from across the entire spectrum of the sciences, from the Earth and sea to the unfathomable reaches of outer space. Every two weeks you'll get the latest news concisely and crisply, plus in-depth reports on trends at the frontiers of scientific research. Subscribers also have unlimited access to our Web site — updated daily — and to our new e-mail headline service, which can be customized to your specific interests.

## 2 FREE issues for YOU!
